Narrative Questions (Please limit answers to three pages total.)

1. Fully describe your experience and skills in the world of community wildfire mitigation.
2. Please explain how you believe your experience, knowledge, skills and abilities would contribute to CMAT's efforts before, during and after an assignment. Be specific.
3. What do you believe is the foundation to creating a successful community wildfire mitigation program which results in mitigation on the ground?
4. What innovative practice(s) have you used to spur community wildfire mitigation in your area?
5. How have you been able to measure the outcomes of the innovative practice?

Provide any supplementary information that supports the work you've done related to community wildfire risk reduction. (Combine supplementary information into a PDF attachment titled: "Application Supplement [Last name, First Name]"

Please provide the following with your application
